

## How does your Pacojet pay off in 13 months\*?

RSP of the Pacojet with accessories:	6000 €
Cost over 10 years:	$6000 \text{ €} / 10 = 600 \text{ €}$
Cost per day:	$600 \text{ €} / 300 \text{ days} = 2 \text{ €}$
Daily savings on raw materials:	15 €**
Amortization:	$6000 \text{ €} / 15 \text{ €} = 400 \text{ days}$ (13 months)

**From 13 months onward, increase your daily  
profitability by 15 €.**

\*Based on 10 years of use and  
300 working days per year.

\*\*Based on experience due to reduced food waste  
thanks to Pacojet.

**pacojet**

The Pacojet ideally pays for itself in  
13 months – solely through the complete  
processing of food.

**Amortization** of the Pacojet through full utilization of your  
raw materials.

---

You're not investing in a device – you're securing daily  
**benefits at a small price.**
